

# Color of My Lips (feat. Busy Signal)

Omi

She says, she like it like  
She really like it like it She likes the colour of my lips  
She says she really wanna kiss me  
She likes the color of my lips  
She says really like the color of my lips  
She says she really wanna kiss me  
She wanna kiss, she wanna kiss Say you couldn't talk when you see me at the mall  
Gave you my number, wasn't sure that you would call  
Posted my picture on your Facebook wall  
Thought that you were fronting 'til you hit the like button  
Can't believe we're talking, we are really talking  
Silly conversations, giggling and laughing  
I called her my honey bunch, she say me her darling  
Snuggle up to me and then she whisper to me softly She likes the colour of my lips  
She says she really wanna kiss me  
She really wanna kiss me  
She likes the colour of my lips  
She says she really wanna kiss me Mi tell her, mi tell her  
So me say come on come on no baby  
What you waitin' on her  
And if you feelin' the feelin' gyal  
You need to take my hand  
And then you go down go down now gyal assume ya position  
Now if ya wanna wanna say something but ya suggestion  
I tell you I swear you're the one I'm feelin'  
I tell I'm the one you're kissing  
My girl, where have you been all my life  
All my life, all my life, yeah She likes the color of my lips (I said she, I said she, I said she)  
She says she really wanna kiss me (she really wanna kiss me)  
She likes the colour of my lips (woah)  
She says she really wanna kiss me She says she loves the rude boy  
She love the way mi move, she gettin' the groove on  
Mi say mi love you den she kiss me like a new born  
She makin' it sling I'm gettin' it in  
Creatin' dust til new dawn  
We jammin' we jammin' like this is just one of them old school songs  
She says she love my lips but this ain't nothin' like LL Cool, J  
She feelin' it, she like it the games we, play  
She lovin' my swagger every night, every day

Come over baby come swing it this way  
You know I've been listening for you to s, sayShe likes the color of my lips (I said she, I said she, I said she)  
She says she really wanna kiss me  
She likes the color of my lips  
She says she really wanna kiss me (she really wanna kiss me)Off my lips  
Off my lips
