That's Right

Amanda

Ain't no doubt about it you want me
Can't you see that I want the same
Don't pretend you can do without me
Baby let me show you this gameAll we need is to get a little closer
You won't regret a thing
It's about time to get it on tonightThat's right, now I got you where I want you, baby
No doubt it's gonna happen tonight, baby, baby
That's right, you know there ain't no use to fight it, baby
No doubt you will love it, alright, baby, babyThat's right, that's right, that's right
That's right, that's right tonightBaby all you see is complications
Doesn't have to happen that way
Let me change this whole situation
I won't let this chance slip away, yeah, yeahAll I know is it couldn't go wrong
Baby, you can't deny
What we got goin' on tonightThat's right, now I got you where I want you, baby
No doubt it's gonna happen tonight, baby, baby
That's right, you know there ain't no use to fight it, baby
No doubt you will love it, alright, baby, babyThat's right, now I got you where I want you, baby
No doubt it's gonna happen tonight, baby, baby
That's right, you know there ain't no use to fight it, baby
No doubt you will love it, alright, babyBaby, can't you see all we need is right in front of us
We can't let this thing just pass us by
Easier than it seems all you have to do is stay around
And you'll know when I tell you that it's for realThat's right
No doubt tonight
No doubt tonightThat's right
No use to fight it
No doubt alrightThat's right, now I got you where I want you, baby
No doubt it's gonna happen tonight, baby, baby
That's right, you know there ain't no use to fight it, baby
No doubt you will love it, alright, baby, babyThat's right, now I got you where I want you, baby
No doubt it's gonna happen tonight, baby, baby
That's right, you know there ain't no use to fight it, baby
No doubt you will love it, alright, baby, babyThat's right
I got you now
