Everlasting

Icon of Coil

Feels so real, can't see it clear
Right in the path of this mind
Anywhere, anytime
Ability to make you seeWe count every single second
Just waiting for a day
Where we all wake up, just to fade away
No use in leaning back and let it head our way
'cause we'll all wake up, just to fade awayTouch the screen, plug me in
Just press the key, velocity
Record my life, design my fear
That's why I brought you here
To make me careWe count every single second
Just waiting for a day
Where we all wake up, just to fade away
No use in leaning back and let it head our way
'cause we'll all wake up, just to fade away
No use in leaning back and let it head our way
'cause we'll all wake up, just to fade awayRemove the shades it's not like it seems
Fatality, go with your dreams
Hypnotize, interfere..
That's why I brought you here, to make me careWe count every single second
Just waiting for a day
Where we all wake up, just to fade away
No use in leaning back and let it head our way
'cause we'll all wake up, just to fade away
