

# Hip Death Goddess (from Monkey Warfare)

## Ultimate Spinach

See the glazed eyes,  
Touch the dead skin  
Feel the cold lips,  
and know the word  
of the hip death goddess  
Touch my hand and you will grow old  
Touch my hand your heart will grow cold  
Come let me take you in my arms  
I will keep you safe from all harm  
Kiss my lips for they are very nice  
Kiss my lips and you will turn to ice  
Look at me and I will turn you on  
Don't try and think because your mind is gone  
Come and look into my frozen eyes  
Come and let me free you from my story  
I am the hip death goddess of your dreams  
Life isn't all that it seems
