

Gods of Terror

God Dethroned

Dictators of the free world
Dictators of the oppressed
Claim to have God on their side
In the battle against evil Your God is dead, the devil is you
Your God is dead, the devil is you Don't talk to me about values of life
If you cross the line time after time
Point your finger at your enemy
I point my finger at you all May God be with us in the battle against evil
You're the one who killed your God
And placed yourself upon the throne
Upon the throne, the throne of God
Upon the throne, the throne of God Dictators of the free world
Dictators of the oppressed
Don't try to wash your hands in innocence
You and all your vermin, your color is blood red Behold the Gods of terror
Play their game of crime
Behold the Gods of terror
Drag us down in misery
Behold the Gods of terror
Speeding the end of time Dictators of the free world
Dictators of the oppressed
Don't try to wash your hands in innocence
You and all your vermin, your color is blood red Behold the Gods of terror
Play their game of crime
Behold the Gods of terror
Drag us down in misery
Behold the Gods of terror
Speeding the end of time Don't talk to me about values of life
If you cross the line time after time
Point your finger at your enemy
I point my finger at you all May God be with us in the battle against evil
You're the one who killed your God
And placed yourself upon the throne
Upon the throne, the throne of God
Upon the throne, the throne of God Dictators of the free world
Dictators of the oppressed
Don't try to wash your hands in innocence
You and all your vermin, your color is blood red Behold the Gods of terror
Play their game of crime

Behold the Gods of terror
Drag us down in misery
Behold the Gods of terror
Speeding the end of time
