Swing Harder (Temper Temper)

Headstrong

Lashing out
At frustrationSwing harder, swing harder
Swing harder
Is that the best you can do?Swing harder, swing harder
Swing harder
Is that the best you can do?I'm still standing here on my feet
God won't you just knock me to my knees
Please, don't hesitate now
Break me down
Just to build me back againTemper, temper
Temper, temper
Always remember
Your temper, temperYou could've been
So much more to meSwing harder, swing harder
Swing harder
Is that the best you can do?I hope you feel better, I don't
I will never recover
From this bliss this dull joy un-victory
You must always rememberTemper, temper
Temper, temper
Always remember
Your temper, temperI made this for youWave bye at you with my broken hands
Good bye Dad, time to make amends to 'em
But you don't see me
I know you have no ideaTemper, temper
Temper, temper
Always remember
Your temper, temper
