It's Over

Bic Runga

Everything that we make
Has long been overrun
Thought our love could be safe
I know now I was wrong
I tried and tried and tried again
'Cos honey now I've had a long day in the sun
And baby, now it's over
And nothing can be done
And nothing can be done
I cried and cried and cried again
I swore you were the one
But baby, now it's over

And nothing can be done
And nothing can be done
So run and tell your mama
And run and tell your friends
But baby, now it's over
And this is where it ends
I cried and cried and cried again
Honey, now it's over
And nothing can be done
And nothing can be done
