

# She's So Fly

## NELLY FEAT. T.I.

She will only stay if you let her fly away  
Once a caterpillar, now a butterfly  
I've seen her fly fly fly fly  
With them wings she's so fine  
I've seen her fly fly fly fly  
Everywhere we goes people stop and look  
They love the girl, man she looking so fly  
When the broken wings got clipped she learns to fly again  
She's so fly  
She's so fly  
She's so fly  
She's so fly  
When the broken wings got clipped she learns to fly again  
She's so fly  
She's the perfect 10  
Maybe up to 11  
Look closer, shoes so new  
Like the mattress of a movie scene  
She knows she's the star  
She's so fly  
We'll undo it and it'll make a bum  
When she smile just turn me on  
Like the worst in my favorite love song  
She's something like a phenomenon  
She's so fly  
She said I never kissed a stranger  
I said I never kissed an angel  
I got this feeling that I wanna share  
You're the only one that can take me there  
Once a caterpillar, now a butterfly  
I've seen her fly fly fly fly  
With them wings she's so fine  
I've seen her fly fly fly fly  
Everywhere we goes people stop and look  
They love the girl, man she looking so fly  
When the broken wings got clipped she learns to fly again  
She's so fly  
She's so fly  
She's so fly

She's so fly  
She will only stay if you let her fly away  
She's so fly  
She's so fly  
She's got me dancing stupid

Guess all my words are useless  
She knows just how to use it  
Shakes her hips, get sushi choose it  
And I hope it's me  
Girl you are all I see  
The way you move in front of me  
She's so fly  
So set your body free  
And girl come close to me  
She said I never kissed a stranger  
I said I never kissed an angel  
I got this feeling that I wanna share  
You're the only one that can take me there  
Once a caterpillar, now a butterfly  
I've seen her fly fly fly fly  
With them wings she's so fine  
I've seen her fly fly fly fly  
Everywhere we goes people stop and look  
They love the girl, man she looking so fly  
When the broken wings got clipped she learns to fly again  
She's so fly  
She's so fly  
She's so fly  
She's so fly  
She will only stay if you let her fly away  
She's so fly  
She's so fly  
When she catwalks just drive  
Brazilian babies, she has more colors than the beeka  
She's so hot, baby the hell follows  
Cuz they do it too tight, Marilyn Monroe  
Seein Tenna, black magic woman  
Ancient Cuban, European, middle eastern  
All American but then in on the fantasy  
Even girls are like dreams to me  
She's so fly  
She's so fly  
She's so fly  
She's so fly

When the broken wings got clipped she learns to fly again

She?s so fly

She?s so fly

She will only stay if you let her fly away

She?s so fly

She?s so fly

She?s so fly
