

# Perfect Mess

## Melee

Ithaca was just a dream before I met you Ithaca my home's been  
Lost to strangers a path left by invaders  
Lead the way I'm gladly sure to stay by your side  
Don't hesitate this one's worth time  
Don't doubt the wait 'cause we are the ones  
We are the ones and this perfect mess has everybody singing for  
Something, someone, sometimes this perfect mess has everybody wishing  
For you to come be part of our world

Ithaca I write these words with hopes of reaching you Ithaca  
Don't think I'll lose you now to the face and grip  
That time has on my mind the pouring rain  
Is slowing down this one's worth time  
Don't let me drown 'cause we are the ones  
We are the ones and they'll figure you out know what you're all about  
'Cause candle light remembers every name  
Every rhythm felt every rhythm moved and every rhythm falling into you
