

# Sister Mary

Tommy Lee

Dont be afraid, Im here for you  
And the audience departed as I gave her heart away from me  
I saw the suns expanded view  
And I thought I heard the answers but I let em slip away from me  
Sister Mary innocent lost her way  
She stood up on the table, gave it away  
Sister Mary innocent all I can say  
What's wrong with you is all that's wrong with me  
Once those skies, weren't they azure blue?  
But the papers always seem to have the ugly things to say, we choose  
Oh Jesus, Jesus, we still love you  
Just as long as proofs a burden we dont ever have to bear for you  
Sister Mary innocent lost her way  
She stood up on the table, gave it away  
Sister Mary innocent all I can say  
Whats wrong with you is all that's wrong with me  
Sister Mary innocent lost her way  
She stood up on the table, gave it away  
Sister Mary innocent all I can say  
Whats wrong with you is all that's wrong with me  
Sister Mary innocent lost her way  
She stood up on the table, she gave it away  
Sister Mary innocent all I can say  
Whats wrong with you is all that's wrong  
Whats wrong with you is all that's wrong with me
