Nobody Understands

Morton Valence

Nobody understands
Nobody, will ever understand

Look at all the people
They're so very nice
They won't hurt you
Unless they have to
But they don't really mean to
Nobody understands

How could such a little thing
Make me want to cry
Yes I know, nobody's gonna die
I guess I was born unreasonable
But all I ever wanted was just a little more
Love

Nobody understands
Me
