With Her Shadow

Born Ruffians

Silhouette will sail away, oh
Thinking of the shadow
Silhouette will sail away, go

Silhouette will sail away, oh
Thinking of the shadow
Silhouette will sail away, go
She liked to keep the sun behind her
Spring days running wild
Keep her hair down as she?s walking
Silhouette she went to find
Because she always liked the shadow
More than her reflection
It?s a better understanding
Silhouette, Silhouette
Thinking of a shadow makes me sweat

Because she always liked the shadow
More than her reflection
It?s a better understanding, oh
Her place in the world
She?s leaving our world behind
For that one that?s center in mind on the shadow

She liked to keep the sun behind her
Spring days running wild
Keep her hair down as she?s walking
Silhouette she went to find
Because she always liked the shadow
More than her reflection
It?s a better understanding

She?s written off all the lies
That were taught but she fought even as a child
See most people don?t know what it?s like
But, but she, she does

Spring days she?s running wild
Keep her head down,
Silhouette went here to find

See, real people don?t belong inside it
She needs the sun

Because she always liked the shadow
More than her reflection
It?s a better understanding
Her place in the world

She?s leaving our world behind
For that one that?s center in mind on the shadow

Silhouette will sail away, oh
Thinking of the shadow
Silhouette will sail away, go

She?s written off all the lies
That were taught but she fought, even as a child
See, real people don?t belong inside it
She needs the sun

Because she always liked the shadow
More than her reflection
It?s a better understanding
Her place in the world

Yeah, she always liked the shadow
More than her reflection
It?s a better understanding, oh
Her place in the world
She?s leaving our world behind
For that one that?s center in mind on the shadow
Silhouette or sail away
