

# Winter Pageant

## The Softies

was it really so long ago  
we were taking photographs  
of each other in our winter pageant clothes  
skipping school going home  
running for shelter from a sudden thunderstorm  
kissing raindrops on your nose what part did I play  
in making you the way you are  
what more can I say to convince you  
you didn't have to go so far  
you didn't have to go so far you may as well live a universe away now  
I'll probably never see you again  
I wonder where you went  
where do you go what do you see  
and do you ever think of me  
and california  
and all that time we spent what part did I play  
in making you the way you are  
what more can I say to convince you  
you didn't have to go so far  
you didn't have to go so far
