

# Round and round (feat. Han Suji) [Inst.]

## HEIZE

See Ya  
Never gone my way  
Better will someday  
Never far away  
See Ya  
Never gone my way  
Better on my stay  
Never far away  
Round and round  
and I never know why  
Round and round  
and it will show us way out  
It's my delight  
As day goes by  
you hold on tight  
another day  
You're wondering why  
but you know why  
no other way  
Somedays the sun will shine down  
Somedays the moon will cry  
Tomorrow we'll see  
Tomorrow we'll be  
As we go on our way  
The world in your eyes  
forever is lie  
as we go on our way  
There is a thousand things to know  
Sometimes we're standing by  
the things we never understand  
As we go on our own way  
The sun goes down  
The tides are low  
I'll see you on the day  
Letting you go on your way  
See Ya  
Never gone my way  
Never we'll someday  
Never far away

See Ya  
Never gone my way  
Never on my day  
Never far away  
Round and round  
and I never know why  
Round and round  
and it will show us way out  
It's my delight
