Light You Up (Radio Edit)

Shawn Mullins

I just want to light you up
Light you up like a fire
I just want to turn you on
Turn you on and take you higherEverybody wants a flat screen
Everybody wanna be seen
Everybody wanna be famous
Ain't nobody gonna blame usEverybody wants a real deal
Everybody wants to cop a good feel
Everybody want more money
Everybody wants a taste of your honeyI just want to light you up
Light you up like a fire
I just want to turn you on
Turn you on and take you higherEverybody wants to pick of your guitar
Everybody wanna ride in your fast car
Everybody wants a puff of your pipe dream
Everybody wanna lick of your ice-creamThe preacher wanna tell ya how to live right
Your mama and your daddy got you uptight
Your lover gonna go and pick another fight
I just wanna keep you up all nightI just want to light you up
Light you up like a fire
I just want to turn you on
Turn you on and take you higherYeah, this whole world can bring you down
And turn your smile in to a frown
Break your heart and make you sad
Drive you stark, raving madI just want to light you up
Light you up like a fire
I just want to turn you on
Turn you on and take you higherI just want to light you up
Light you up like a fire
I just want to turn you on
Turn you on and take you higher
