

Pray for Death

Hoods

From day one its been a test for the best
A road straight down
Prayers at my bed
Time and time again waiting to see our fall You cant kill whats dead Undead inside myself
Learned my lessons well
No God can tame this beast
Your heavens inside my hell No God died for me
Undead inside myself
His love, Ive thrown away
Now God can drink from melts time to pay for your sins
Drink from me
Pray for your sins
Pray for your sins Its time to pay the price
For what youve put us through
Children slain everyday, true sickness born in you
No God would drink from me
