

Empty House

[Trey Anastasio](#)

Love went away, went away
Went away, went away, went away so soon
Love went away, went away
Went away, went away, went away so soon Love went away, went away
Went away, went away, what am I to do?
Now that love went away, went away
Went away, went away so soon She went away, went away
Went away, went away, went away so soon
She went away, went away
Went away, went away, went away so soon She went away, went away
Went away, went away, what am I to do?
Now that love went away, went away
Went away, went away so soon
