All I Know

Julian Marley

All I know if you keep on taking water from the well...it will all dry up and you have up having nothing for yourself. All I know if you keep on taking water from the well...it will all dry up and you have up having nothing for yourself.
Your making a fool of yourself...thinking money can buy you health...it's only a greedy heart...loves to finish but never start. You use and abuse everyone around you...taking them for granted...feeling like the world is against you...so you take advantage.
So...All I know if you keep on taking water from the well...it will all dry up and you have up having nothing for yourself. All I know if you keep on taking water from the well...it will all dry up and you have up having nothing for yourself.
your head is gone so far...almost forgotten who you are and your nver satisfied...you can't see cause your full of pride and one day you'll be played...bu your own works you will be played...one more thing do'nt say you never heard...play with fire you will get burned.
So...All I know if you keep on taking water from the well...it will all dry up and you have up having nothing for yourself. All I know if you keep on taking water from the well...it will all dry up and you have up having nothing for yourself.
