

Radio

Teenage Fanclub

I think I'll kill the radio, don't want to hear this song Can't relate to yesterday, what we did was wrong But now
you lighten up my day with your views yeah...mmm... Baby, justify the reason behind your style Love to hear
your song Just out of school and you're "that's so cool" Find a craze that fits and stay there for awhile On the
A.M. (background) On the A.M. On the A.M. I don't know You can't even get it on what all your chances are
I'm the one who falls And when I try to trip you up I'd paint my face with the latest craze Did you know when I
was young Baby, justify the reason behind your style Find a craze that fits and stay there for awhile Love to
hear your song On the radio, on the radio You on the radio, on the radio You on the radio, on the radio On the
radio, on the radio
