

Business

Teyana Taylor

Every since the first time I laid eyes on you
I saw the truth
No questions, just proof
They talk but I ain't hear a thang they said bout you Every since the first time
We made love
Everybody want details
So don't say nothing i won't say nothing
If you don't say nothing Cause this is between us Yea we gone fight but imma love you til its alright
ain't gone find these answers outside Boy we don't need nobody's advice Give me a shoulder to cry on
and i'll be alright
I'll be the one you rely on This love
Ain't none of yo friends business
Ain't none of my friends business
Its ours
All ours
Nobody else's None of yo friends business
Ain't none of my friends business
no no no no.. nooooo Ain't none of your friends business
Ain't none of my friends business
Boy its ours
Baby it ours
