

What Is Love

Alphaville

What is love ?
I'm getting closer to her
And the closer I get
The more I lose my fear of loneliness

A step outside in the rain,
They just close the cinemas
I'm light years away from you as I drive in my car
And your love shines like a neon sign,

It ain't so far
But the distance is unbelievable
What is love: unbelievable
What is freedom ?

I guess that I'm free again
I'm so fucking free to decide
Whether I'm wrong or right, to win or lose
I love you, I feel like a little boy

Too little to take all your burning love
And toy land is melting away in the heat
