

# Excuse Me

Roberto Rodriguez

(Lisa Marie Presley/Clif Magness)  
It's finally winter and I'm so happy  
I do better in the cold  
I like the friends who don't try to save me  
I've been trying that too long  
What did I just say can you tell me  
Sorry I do that a lot  
Did you know I broke up my family  
And the guilt is never gone  
Mister did you  
Say something to me  
Were you there this whole time  
Please excuse me  
You know there's some who really hate me  
Hey you know that's a unique dog  
You have a nice smile want some candy  
Some people say that I have too much

I had a good feeling when I woke up  
But I missed it 'cause I was sleeping  
Did you know I broke up my family  
Oh the guilt it's really killing me  
Mister did you  
Say something to me  
Were you there this whole time  
Please excuse me  
Mister did you  
Say something to me  
And were you there that whole time  
Excuse me  
Mister did you  
Say something to me  
And were you there that whole time  
Well please excuse me  
Forgive me
