

Trust

Pete Murray

I sit solo in a room
Bright light on my face
Interrogation consists of
Two questions of my faith

[Chorus:]

Come on break me
Come on shake me
You won't leave it alone
Come on make me
Come on break me
I won't take it at home.

I fall back onto the floor
Bright light on my face
Constriction consists when I breathe
Fear I'm losin' my space

[Chorus:]

And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
You don't trust me, trust me, trust me, trust me
You don't trust me, trust me

[Chorus:]

And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
You don't trust me, trust me, trust me, trust me
You don't trust me, trust me
