Goodbye Easy Street

Jerry Jeff Walker

John InmonWell the sun went down
On Easy Street
She's been closed down for the winter
She stopped to take a rest
Or maybe push us from the nest
It's just a dance that the shadows doChorus:
And it's goodbye, goodbye Easy Street
Once you say goodbye, it is goodbye
And it's goodbye, goodbye Easy Street
This is goodbye, this is goodbyeAt the carnival
In the sweet summer time
You get sick from eating too much candy
And the leaves they change
And you change your train
It's just a dance that the shadows doChorusLike a bell that must be rung
Or a song that should be sung
Or a story that's never ending
She'll hold you to her breast
Then she'll put you to the test
It's just a dance that the shadows doChorus
