

# Midway Down

## The Creation

Have you ever seen a carousel  
thrown your pennies in a wishing well  
eating jelly on a stick  
too much will make you sick  
three ring circus, trapeze artist  
swinging to and fro  
with no net below  
tiny cars, 12 pounds of oil  
isn't that an awful silly scene  
Hear the barkers calling people to the sideshow  
bearded ladies, dancing babies, waving hello  
ten foot giant finds it tough to lift a feather  
three foot midget hopes he won't be small forever  
See the dancing bear, tigers through the air  
see him jump so high, nearly touch the sky  
elephants and tall giraffes, monkeys have such funny laughs  
Hear the barkers calling people to the sideshow  
bearded ladies, dancing babies, waving hello  
ten foot giant finds it tough to lift a feather  
three foot midget hopes he won't be small forever
