

# Fool That I Am

**Rita Coolidge**

Oh, I tried to make the best of  
All the sweet love that you gave me  
    Maybe I'm crazy  
But I keep on losing groundFool that I am, fool that I may be  
    When will I ever know what's true  
        And if I found out differently  
Would I still love you?Two hearts breakin', two hearts achin'  
    Someone's takin' more than they gave  
        Trusting in someone  
Who has no trust in meFool that I am, fool that I may be  
    When will I ever know what's true  
        And if I found out differently  
Would I still love you?Fool that I am, fool that I may be  
    When will I ever know what's true  
        And if I found out differently  
    Would I still love you?  
    Would I still love you?
