State of Mind

Electric Light Orchestra

I was goin' round the world
I was lookin' for somewhere
I was searchin' for someone
Who was gonna take me thereDidn't want to do it 'cause I knew what I'd find
You're really only livin' in a state of mind, yeahI was thinkin' of the past
I was tryin' to rack my brain
I was looking at the future, looking at the future
I was tryin' to play the gameDidn't want to do it 'cause I knew what I'd find
You're really only livin' in a state of mind, yeahSometimes you get lost
Sometimes you get found
In a state of mindSometimes you're too high
Sometimes you're too down
It's just a state of mindDidn't want to do it 'cause I knew what I'd find
You're really only livin' in a state of mind, yeahSometimes you get lost
Sometimes you get found
In a state of mindSometimes you're too high
Sometimes you're too down
It's just a state of mindYou think you know it all
Then you think that you know nothing
Can't dance, can't crawl, crawl
Maybe you better forget itDidn't want to do it 'cause I knew what I'd find
You're really only livin' in a state of mind, yeahDidn't want to do it 'cause I knew what I'd find
You're really only livin' in a state of mind, yeahDidn't want to do it 'cause I knew what I'd find
You're really only livin' in a state of mind, yeahState of mind
State of mind
State of mind
