and slam George Lucas' head in a car door
for far more then just ruining star wars

and f**k comic sans and f**k low bandwidth
and don't say Pluto ain't a planet, god d****t
I'm reading what you're saying on the message boards
yes i have to had sex before
with a girl you don't know her she moved away
shut up, and don't tell me Dr who is the same
without tom baker the s**t is just lame

how dare you say marvel is better then dc
you horrible grammar, its makin' me puke
and captain kirk was far superior to jean luck picard
and a jedi could whip superman in a fight

when i'm right imma laugh like
(nerd laugh)
you beat me chess; i'm flippin' the board
then i'll go to michael bays house and kick in the door
break every single copy of transformers 4
hit bay in the d**k with a stick 'til he's sore
i'll own your a** in halo so bad you might cry
and who the hell jacked my twelve-sided die
i'm going to beat you up; i know karate ask my girlfriend

and give'em back to me and holy s**t
