

Set it Off

Skindred

We in ah heavyweight style we are kick it
Know we inna the zone we come for mash it and go home
And we make the room tear down das what the dred come to do I know the people understand,
When they see the dredder with the mic in ah me hand
We make the vibe just cool,
When you see we rocking heavy weight we got the fuel
Yer you know we tear it up
Coming with the action yer you know we're on top
Yer you know we're like a bomb ready to go off we got the ammunition Yer you know that it's on,
DJ rocks the place from dust till dawn and
Cause you know that it's on
We tears it up from dusk till dawn Kill them with the rhythm coz we come to set it off
Set it off Jah know say we come fe set it off
Kill them with the rhythm coz we come to set it off
Set it off Jah know say we come fe set it off Set it off Jah know I say we come fe set it off
You know that we come to set it off
Set it off Jah know I say we come fe set it off
You know the we come fe set it off Now we've stated what we want inside dis place
Now its up to you to move your body to the bass
We no were hitting hard and coming strong
As you jump around you could never do no wrong
Set up the sound an make it rock
Coming with the power musically can't stop
We no what no negative in de place stepping up a gear
We got the bass you can taste You know the people dem ah rock and everything is just fine
We no need no violence we no need no crime,
And if you deal with dat dem call 999
Babylon will beat you up and put you back in to line
Rude boy its you that I am talking to
Yeah man
