Only You

Lea Salonga

(jose m. lavina)Still don't understand how love so strong
Melts and fades away just like a song
Can't explain how you and I would grow
Now I'm alone, out on my ownChorus:
Only you, light up my life, only you
Night after night, only you
Only your love feels so right
Only youYesterday when love we had was new
No one in our world just me and you
Take me back where you and I belong
Where love was strong, it's been so longOnly you, light up my life, only you
Night after night, only you, only you
Only your love feels so rightOnly you, light up my life, only you
Night after night, only you, only you
Only your love feels so right
Changing my life, only you.
