

# Saturday

## Olivia the Band

Night of friday, gotta feel it  
Weekends over we can begin it  
Over sunday follow Monday  
No, this is a Saturday and I'm feelin' great  
One thing left to do

(time to say)  
Beautiful day  
(time to say)  
Beautiful day

These days are few and far between  
So get on your feet and sing along with angels as they cry

Thank you for life  
Never taking any breath or any second  
For granted I will fail yet I will try  
I will try

Sun is sinking  
Air is cooling  
Day is dying  
Night arriving  
White wash ocean waves  
No place I'd rather be  
No wind no crowd  
Only friends out  
This is our hope  
This is your song

(time to say)  
Beautiful day  
(time to say)  
Beautiful day

These days are few and far between  
So get on your feet and sing along with angels as they cry

Thank you for life  
Always taking every breath and every second  
Moment opprotunity to shine

Thank you for life  
Never taking any breath or any second  
For granted I will fail yet I will try

Thank you for life  
Always taking every breath and every second  
Moment opportunity to shine

Thank you for life  
Never taking any breath or any second  
For granted I will fail yet I will try
