This I Don't Need

Starflyer 59

Good friends leave
I better not think
About love and war
No matter to meEveryone you love
And everyone who laughsIt doesn't breathe
The music machine
And at a yearly cost
Made me a half weakAnd everyone you love
And everyone who laughsEveryone you love
Everyone who laughs
And this I don't needEveryone you love
And everyone who laughsEveryone you love
And everyone who laughs
And this I don't needAnd this I don't need
And this I don't need
And this I don't need
And this I don't needAnd this I don't need
And this I don't need
And this I don't need
And this I don't need
And this I don't need
