

# Miles Away (Thin White Duck Mix)

## Madonna

I just woke up from a fuzzy dream  
You never would believe those things that I have seen  
I looked in the mirror and I saw your face  
You looked right through me, you were miles away  
All my dreams they fade away  
I'll never be the same  
If you could see me the way you see yourself  
I can't pretend to be someone else  
You always love me more, miles away  
I hear it in your voice, we're miles away  
You're not afraid to tell me, miles away  
I guess we're at our best when we're miles away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
When no one's around then I have you here  
I begin to see the picture, it becomes so clear  
You always have the biggest heart  
When we're six thousand miles apart  
Too much of no sound  
Uncomfortable silence can be so loud  
Those three words are never enough  
When it's long distance love  
You always love me more, miles away  
I hear it in your voice, we're miles away  
You're not afraid to tell me, miles away  
I guess we're at our best when we're miles away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
I'm alright, don't be sorry, but it's true  
When I'm gone you'll realize  
That I'm the best thing that happened to you  
You always love me more, miles away  
I hear it in your voice, we're miles away  
You're not afraid to tell me, miles away  
I guess we're at our best when we're miles away

You always love me more, miles away  
I hear it in your voice, we're miles away  
You're not afraid to tell me, miles away  
I guess we're at our best when we're miles away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away, so far away  
So far away
