

Stiv & Johnny

The 69 Eyes

don't touch
keep your hands to yourself
i see what you want
to look into a rebel's eyes you're a fallen angel
looking for troubles in paradise
in don't need no one
better drop your guntake
your heart back
i don't need it and that's a fact
got my own cross to bear
we don't fit anywhere
don't ask
keep your questions to yourself
we got all we want
to live here forever free
we're the fallen angels
of the lower east side
we don't need no one
better drop your guntake
your heart back
i don't need it and that's a fact
got my own cross to bear
we don't fit anywhere
stiv & johnny
gene & eddie
always looking down from heaven
take
your heart back
i don't need it and that's fact
got my own cross to bear
i don't fit anywhere
