Masterpiece

Aura Dione

I want to show you who I really am
So that we can get down
I have a little golden bird inside
It starts to sing when you're around
Tell me all your dreams
Your brain is beautiful
You are full of light
Don?t be afraid to try
Baby you?re a masterpiece
A thousand years of poetry
I just want to scream your name
You?re a killer fantasy, celebrating mystery
I want you to feel the same
I want to get to know you, talk all night
So that we can get down
Your melodies come from an oper mind
No playing tricks when you're around
Tell me all your dreams
Your brain is beautiful
You are full of light

Don?t be afraid to try
Baby you?re a masterpiece
A thousand years of poetry
I just want to scream your name
You?re a killer fantasy, celebrating mystery
I want you to feel the same
You're like an evergreen
The best thing I?ve ever seen
Now this is the time
To let the fairytale outside my mind
Baby you?re a masterpiece
A thousand years of poetry
I just want to scream your name
You?re a killer fantasy, celebrating mystery
I want you to feel the same
Baby you?re a masterpiece
A thousand years of poetry
I just want to scream your name

You?re a killer fantasy, celebrating mystery
I want you to feel the same
