

The Pistol

Sounds Like Violence

do you know what keeps me up at night?
 too many times i've seen the light
 there are things that have never been said
for example: i've been dead for quite a whilei've got a gun and i shoot it bad
 it's the best thing i've ever had
 the ones i hated baby, they're all dead
 i shot them in the foreheadpain, i can't feel pain
 and i know that it's a shame i got no feelings
 and i never cry out loud
 i don't even care for the ones who saved my life
i'm sorry, i'm sorryi wanna rise high above the sky
 i'm not a superman nor a fly
 i've got the whole world in my hand
 the sun, moon and the stars
 they're all mine
