

# Take Aim

## Confess

Nightmares, oh nightmares come on now  
Getting my days all wrong now  
Risen from prison an outlaw  
Spending our time in the lion's jaw  
In the end you sink or swim, I'm eager, I'm eager  
Loving, more loving, come on now  
Socially biting your tongue now  
Run down, oh run down old houses  
Feeding the cats to the mouses  
Oh take aim now, oh take aim now  
Can you see me in the way now?  
Oh take aim now, oh take aim now  
Gotta get us out of here  
Drop them and give them star prizes  
Lock them away in high rises  
Held off and called on by truncheons  
Rattling keys to the dungeons  
Oh take aim now, oh take aim now

Can you see me in the way now?  
Oh take aim now, oh take aim now  
Gotta get us out of here  
Don't take me over  
I bid you all farewell, I've got to leave  
Tears on my shovel  
Switch me off today  
Oh take aim now, oh take aim now  
Can you see me in the way now?  
Oh take aim now, oh take aim now  
Gotta get us out of here  
Oh take aim now, oh take aim now  
Can you see me in the way now?  
Oh take aim now, oh take aim now  
Gotta get us out of here  
Don't take me over  
I bid you all farewell, I've got to leave
