

# Friends for Life

**Julee Cruise**

In this world of many people  
You and I live and love on many lands  
We dance, we fly, we laugh, we cry  
The river of our life flowsThrough the changing waters  
A shining truth we see  
We will always strive to be  
Friends, friends for lifeIn this world of many colors  
The storms of life, the joys of life move by  
The dark, the light, the day, the night  
The river of our life flowsThrough the changing waters  
A shining truth we see  
We will always strive to be  
Friends, friends for life  
We are friends, friends for life
