Girl U Want

Devo

You're in a corner everywhere you turn
You know you're headed for the planet of burn
But the words get stuck on the tip of your tongue
She's the real thing but knew it all alongShe's just the girl, she's just girl
The girl u wantShe sings from somewhere you can't see
She sits in the top of a greenhouse tree
She sends out an aroma of undefined love
It drifts on down in a mist from aboveShe's just the girl, she's just the girl
The girl u wantLook at you with your mouth watering
Look at you with your mind spinning
Why don't you just admit it's all over
She's just the girl u wantShe's just the girl, she's just the girl
The girl u wantShe's just the girl, she's just the girl
The girl u wantYou're in a corner everywhere you turn
You know you're headed for the planet of burn
But the words get stuck on the tip of your tongue
She's the real thing but knew it all alongShe's just the girl, she's just the girl
The girl u wantShe's just the girl, she's just the girl
She's just the girl, she's just the girl
The girl u want
