

# Do The Joy

## Air

The world is on the brink  
The brink of our extinction

The end of an era

The end of a genre

Do the joy, do, do, do

Do the shouts, do, do, do

Do the cries, do, do, do

Do the smiles, do, do, do

Building a sepulture and fading to the ground

Laughing on our ashes and holding our own lashes

Slapping all the species from all over the seas

Do the joy, do the joy, do the joy, do the joy

Do the shouts, do the shouts, do the shouts, do the shouts,

Do the cries, do the cries, do the cries, do the cries,

Do the smiles, do the smiles, do the smiles, do the smiles
