

Revolution

Built to Spill

I'm killing time want it all the time want it to go away I'm stealin' time want time all the time revolution or
want it to go away revolution revolution revolution want it to go away revolution it's like turning on the heat

I'm just in time how come people don't fuck it up time to see it all make it go away I change my mind
revolution change it all the time revolution revolution it's like turning on the heat how come people don't fuck it
up
