

# Who Are You

## Wintersleep

I know you nag, baby who are you  
From where you came I know your move  
Means of escape I know your tune  
I know you better than you want me to But who are you (Who)  
Who are you (who are you, who are you)  
Who are you (Who)  
Who are you (who are you, who are you) Nothing to change, out to undo (I love)  
September blows away and Winter too (I love)  
Doesn't matter what you say it's what is true (I know)  
Doesn't matter what you did it's what you do And who are you (Who)  
Who are you (who are you, who are you)  
Who are you (Who)  
Who are you (who are you, who are you) Every night and day (I think about it)  
I dreamt the night away (I think about it)  
Every night and day (I think about it)  
I dreamt the night away (I dream about about it)  
Every night and day (I think about it)  
I dreamt the night away (Who) who are you  
who are you (Who)  
who are you  
Who are you (Who)  
who are you etc.
