Ordinary Girl

Selectracks

So you know me
You know my story
You think that you've got me all figured out

It was a good try
But don't be surprised
That you don't see me following the crowd

You can't judge a book by its cover
I've never been easy to read

Chorus:
Take a look at me
Tell me what you see
Never an ordinary girl

Take a look around
Tell me what you've found
In this ordinary world
Where I'm free to be who I want to be (who I want to be)
Never an ordinary girl

It's my life (it's my life)
And i know I'll be fine if I just always be myself (always be myself)

And I don't care (and I don't care)
If you will stare
I'm not concerned with anybody else (anybody else)

You can't judge a book by its cover
I've never been easy to read

Chorus:
Take a look at me
Tell me what you see
Never an ordinary girl

Take a look around
Tell me what you've found

In this ordinary world
Where I'm free to be who I want to be (who I want to be)
Never an ordinary girl

Take a look at me
Tell me what you see
Never an ordinary girl

Take a look around
Tell me what you've found
In this ordinary world
Where I'm free to be who I want to be (who I want to be)

Never an ordinary
Never an ordinary
Never an ordinary
