Surgical Distortion

Yyrkoon

Surgical DistortionUsing of their flesh and their blood in excess
To show the world the real benefits of mutilation
Jubilant discovery of mental torture
Control your souls so that you can sufferSurgical distortion
Will give a meaning to your lost souls
Surgical distortion
Will give a meaning to your lost soulsIt's so hard to keep any awareness
Madness begins where your reason stops
Be that as it may going on with the pains
May the fluid spread itself with an unconcealed pleasureI need guinea pigs
Of a better resistance
I'm disappointed by the latest
Who hasn't been up to it yetMore generous
I will be
The more grateful
They will be
More generous
I will be the more grateful
They will be
