

Tricks and Traps

Annihilator

Hey you, I need a friend, I hope you feel the same
this life is sucking me dry, how do you deal with the pain
step closer, my friend, come and hear my pitch
I understand, just how do you feel, well ain't life a bitchtricks and traps, slice you to nothing
tricks and traps, never let 'em get to you they'll drag you down, down to the bottom
tricks and traps, you better beware
I bring you pleasure, I'll bring you pain
I heal and disease, play-time, I like to ruin for fun
I'll bring you down to your knees
illusions and dis-illusions, I make them up for real
the damage is random, so believe me, it's time to kneeltricks and traps, slice you to nothing
tricks and traps, never let 'em get to you
