

Villain Fear

Sir Cadian Rhythm

She came to me to my surprise -
A hero in disguise and brought me back to size
She radiates my skin and bones
melts the ice that caged the soul
and chased ole Villain Fear awayIt all makes sense now babe
In perfect time you came and went
You fled the scene so fast
We didn't stand a fighting chanceShe goes up up and away
But I'm in love with you and I barely caught your name
Then it dawned on me at the break of day
The light you gave began to fade
Now theres another life to saveIt all makes sense now babe
In perfect time you came and went
You fled the scene so fast
We didn't stand a fighting chanceOn and on we go its over
On and on we know its over
could you chase it all away?On and on we go its over
On and on we know its over
put the villain fear awayIt all makes sense now babe
In perfect time you came and went
You fled the scene so fast
We didn't stand a fighting chance
