

# Carte Blanche

Teena Marie

You can take possession of my body  
I'll give you the full authority  
Call me on my unrestricted number if you like  
If you want some company  
I'm gon leave it up to your discretion  
'Cause it seems I've finally found my time  
And if you wanna play with my affection  
Then call me on my private line[Chorus]  
Carte blanche, baby  
And this story you write  
I'm gonna sign for you baby  
You've got carte blanche, baby  
You're really bossy I know  
But I love when you take control There's someone here who wants to handle something  
Giving you complete autonomy  
It seems a crime to forget all we once were  
I'm gon let you handle me  
I'm giving you the blank card, it's the black card  
Like the jokers, highest guaranteed  
And if I let you kiss me it's all over  
The kiss would give me much more potency[Chorus] Ask me what you want  
And I'll give you the world on a silver platter baby  
Here I stand holding a heart so true  
And if that doesn't do  
Baby, then I'll try something new What you wanna do? Handle your business baby  
I'm gonna let you handle me  
I'm gonna let you dive beneath the hour baby  
I'm giving you the power over everything[Chorus] So nice with it baby  
I'm gonna let you handle me  
Got my signature baby  
You'll be rest assure  
You got the kill baby  
Sign my name on the dotted line  
And it's right on time  
You're so fine
