

# One More Day

## New Edition

Yeah, I can't deny it, on the inside, I'm slowly dyin'  
But with a little love, it'll be alright, just give me one more day  
I promise I'll make it up to you, I never meant to hurt you, baby

Just trust me, listen

I can't deny it

That you got me cryin', you see

And I'm, I'm slowly dyin'

So we can't give up tryin' to be

With a little love, it will be all right

With a little kiss, let me hold you tight

With a little peace, it could be so fine

And baby, don't you leave me tonight

I just need one more day

And I won't make you cry, darlin', believe

And baby, don't say, "Good bye"

Look in my heart and I won't tell you no lies

Just one more day and lovin' me will be fine

People tell me that true love is blind

But I'm trying to prove that true love is kind

All that I want is to make things right

So won't you be my baby tonight?

I just need one more day

And I won't make you cry, darlin', believe

And baby, don't say, "Good bye"

Look in my heart and I won't tell you no lies

Just one more day and lovin' me will be fine

One more day

One more day

One more day

One more day

With a little love, it will be all right

With a little kiss, let me hold you tight

With a little peace, it could be so fine

And baby, don't you leave me tonight

I just need one more day

Just one more day

Just one more day

Just one more day

Just one more day

One more day

One more day

One more day
