# Get Mine

## Kid Ink

first of, eat a dick, try to tell me i ain't working hard
where i'm from yeah, i could be worse off
life is a bitch, it's was her loss
but i made it through the pain like a tattoo
turned me to a young nigger with an attitude
what it do? ain't shit changed
west side, we know the fucking name
it's kid ink baby, came real far
back then yeah they used to call me rock star
i'm still a rock star, 2 fingers up, like one just ain't enough, ah
fuck the world now we making love
been doing this shit you niggers faking up
fast life 4 shift, never breaking up
i got bars nigger, never breaking up
you hear me? ah, yeah,
[chorus]we came a long way from nothing
made it through it all so it must be something
better get ready, tell them we coming
never back down, even when they all fronting
i gotta get mine
get it go, get it go, get it go go
i gotta get mine
get it go, get it go, get it go go
yeah, cause they ain't gonna give it to me
take shots but they ain't sending to me
want something done right better do it nigger
on the wild ride with a bunch of fluids in us
been letting nigger fly like a playground
anyone wanting tell them there's another door around
yeah, it's going down,
beef ain't nothing but a quarter pound, ah
and i'm ill, cancer, gonna bust a move like a soul trained cancer
yeah money here, ? came for the fire, campus
you already know who i roll with
? bad game, better get focus
they all looking hopeless
just tell them nigger hold this

[chorus]we came a long way from nothing

made it through it all so it must be something
better get ready, tell them we coming
never back down, even when they all fronting
i gotta get mine
get it go, get it go, get it go go
i gotta get mine
get it go, get it go, get it go go
believe that, i'ma need that, please
no opinions if i ain't ask for your feedback, look
nigger, we that, steven wonder can see that,
all of these shows sell out, and all of my hoes can see that
wait, niggers relaxed, i'm an insomniac
drop a table on time before they miss us, we back real
nigger respect anywhere that we be at still
niggers special when you reach the level we at, kill
jealous niggers catch the case
but we gonna beat that still
cash rules everything and nigga we got bills
my seat back, diggy pockets with g stacks
play with me wrong, i promise you can leave..too fast
now sink that, how can we achieve that? built the shit from nothing now ballin' is my reflex, nigga
where your team at? better where your b at?
we killing competition, no condolence
get the kleenex
pissing on pots at the repass, full time grind no recess
expensive ass pussy if i need that
baby suck it so good i'm like damn where your teeth at
[chorus]we came a long way from nothing
made it through it all so it must be something
better get ready, tell them we coming
never back down, even when they all fronting
i gotta get mine
get it go, get it go, get it go go
i gotta get mine
get it go, get it go, get it go go.
