

Jean Is Dead

Descendents

Wake up early, mad at you
Got to school, but where are you
You should have told me
I should have known
But now you're gone
And I'm alone
Your mother told me
Last night on the phone
why you do it
now im alone
I would have helped you
I would have done anything
I would have taken you with me
Or brought you a ring, but
Now you're gone and, I'm alone!
